

NORWEX MICROFIBER

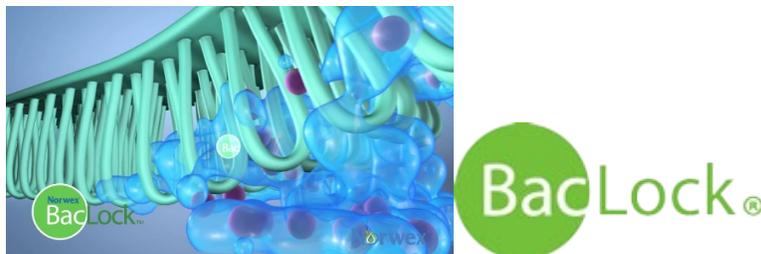

LITTLE CLOTH, BIG CLEANING POWER

Microfiber Makes a Difference

Norwex Microfiber is more than just a cleaning product. When you use a Norwex Microfiber product, you are making a real difference for yourself, your family, and the environment by:

Decreasing the time you spend cleaning
Reducing the use of cleaning products
Reducing exposure to toxic fumes and harmful chemicals
Reducing paper towel use and landfill contributions
Preserving the environment for future generations

- Removes up to 99% of bacteria from a surface when following proper use and care...**just use water!**
- BacLock®—our exclusive **micro silver antibacterial agent**—offers continuous protection against microbes and odors within the cloth.
- Norwex Microfiber with BacLock is mildew resistant, keeping it cleaner and fresher longer.
- Helps eliminate the need for paper towels and chemical laden cleaners
- Significantly reduces the use of costly cleaning products
- Ultra-thick and absorbent to pick-up and hold more dust, dirt and debris than other cleaning cloths
- Holds several times its weight in water
- Made of more than 10 million feet of microfiber for more effective cleaning power

Look for the BacLock® logo to identify products that contain an antibacterial agent for self-cleaning purposes only. The agent is solely designed to inhibit bacterial odour, mould and/or mildew growth within the product.
